For Immediate Release

The Mono Lake Committee Information Center & Bookstore would like to invite everyone to drop in and visit their photography and art gallery to view the watercolor paintings of Nicola Voorhees. The year round gallery, located in downtown Lee Vining, at the Mono Lake Committee Information Center & Bookstore, showcases photographs and paintings by local artisans from around the Eastern Sierra. Nicola's watercolors of the Mono Basin inspire viewers to look at her landscapes with a fresh vision, seeing nature as never before. Her use of color and form vividly portray a unique interpretation of Mono Lake's scenic wonders. Dreamlike cloud formations and moonrises, tufa towers and layers of mountain ridges are combined with recognizable landmarks to produce breathtaking vistas of the Mono Basin and Mono Lake. Nicola's paintings will be on exhibit through March of 2004, and displayed paintings can be purchased directly from the Mono Lake Committee Information Center & Bookstore.

Beginning in April, local photographer Claude Fiddler will be showcased through October of 2004, followed by the photography of Beverly Schroeder from October through to July of 2005. After those dates, the photographic work of the late Eric Brower will be on display from July through October of 2005. The Mono Lake Committee Information Center & Bookstore is open daily from 9:00 am until 5:00 pm. The bookstore will be closed on New Years Day. For more information on upcoming exhibits, seminars or special events, please call 760-647-6595.
