For Immediate Release

With the Tioga Pass area full of wildflowers, now is the time to spend some time in the colorful high country learning about the local flowers! Sign up now for the Mono Lake Committee's field seminar, Identifying High Country Wildflowers (July 27-29, 2007)—it's the perfect venue for learning more about Sierra wildflowers.

Identifying High Country Wildflowers is a three-day seminar led by consulting biologist Mark Bagley. Mark has been leading seminars for the Committee for nearly 10 years, and is popular for his engaging teaching style and easy-going pace in the field. The seminar group will explore the meadows and rocky slopes of the Tioga Pass area, finding the resident flowers and keying out their parts and identification. You'll never be stumped again when a visiting relative asks the name of that pretty yellow flower!

Space is limited, so reserve your space as soon as possible!

Identifying High Country Wildflowers—July 27-29, 2007

\$140 per person / \$125 for Mono Lake Committee members

To register, call the Mono Lake Committee at (760) 647-6595 or visit

www.monolake.org/seminars.
