

Arborglyphs & Aspen Natural History

October 2–3, 2021 • Richard Potashin & Nancy Hadlock

\$172 per person/ \$157 for Mono Lake Committee members
enrollment limited to 10 participants

Ongi-ettorri! Welcome to this seminar on aspen natural history and aspen carvings. Fall is the best time to showcase the intriguing and colorful aspen, which will be the object of our affections this weekend, both artistically and culturally.

This seminar is designed as an introduction to the history, culture, and solitary lifestyle of the man responsible for many of the aspen carvings—the Basque sheepherder—one of the neglected icons of the American West. By visiting several different groves we will compare the designs and artistic and cultural content of aspen carvings. Participants will have an opportunity to document carvings using photography, pencil drawing, and video.

The trees also have wonderful stories to tell. As we meander through the groves we'll discuss the natural history and ecology of aspens, the tremendous community of living organisms they support and the historical impacts of grazing on aspens in and around the Eastern Sierra.

Richard Potashin, aka “Alkali Aspenowza,” has been a longtime Eastern Sierra resident and past Mono Lake Committee intern and canoe guide who continues to discover and document aspen carvings. Nancy Hadlock is a retired National Park Service and US Forest Service naturalist, interpreter, and educator. She has also been studying Basque culture since college, taking classes at the University of Nevada’s Basque Study Center.

ITINERARY

Saturday, October 2 at 8:30am: We will meet at the Mono Lake Committee Information Center & Bookstore in Lee Vining. After brief introductions, we'll caravan to an aspen gallery for an

introduction to aspen natural history and arborglyphs. We'll return to the Mono Lake Committee between 4:00 and 5:00pm.

Sunday, October 3 at 9:00am: We'll regroup at the Mono Lake Committee and proceed to another aspen grove, where we will spend the morning and have lunch. We'll be outdoors all day and will return to the Committee between 3:00 and 4:00pm.

COVID-19 PROTOCOLS

To prevent the spread of COVID-19, all seminars will be limited to ten participants and will take place entirely outside. Participants will caravan to each field location rather than carpool. All participants, including those who have been vaccinated, are expected to wear masks and socially distance for the duration of the seminar. Additionally, participants will need to complete a health screening before arriving in the Mono Basin and again at the start of the seminar. Keeping participants, instructors, and our staff safe is our highest priority.

ELEVATION & WEATHER

Most of the weekend will find us at 6,500–8,500 feet above sea level. **Anyone restricted to lower elevations should not enroll.** Those with a history of heart, ear, or respiratory problems should consult their doctors before attending. Most of the walking will be at a leisurely pace, with some of it over trail-less terrain. There may be some high stepping over fallen aspens.

Temperatures in fall can be comfortable or downright chilly, ranging from the 30°s to the 70°s. Winds and snow can also be present at this time. Be sure to bring extra layers like fleece garments, down jackets, windbreakers, warm gloves, and hats. Sturdy shoes and thick pants are recommended.

ALTITUDE & DEHYDRATION CAUTIONS

Remember to bring (and drink!) lots of water because your body loses more water at the higher altitudes of the Mono Basin. Experts recommend that you begin drinking extra water as you drive to higher elevation in order to prevent dehydration and headaches. Also, the sun is rather fierce at high elevations, capable of burning even on cool and cloudy days, so be sure to protect yourself thoroughly using sunscreen, sunglasses, and hat.

MEALS

Please bring a lunch already packed in the morning plus water and snacks to eat during both days.

TO BRING

- | | |
|--|--|
| <input type="checkbox"/> a face mask (no buffs as masks) | <input type="checkbox"/> pencil and paper |
| <input type="checkbox"/> hand sanitizer | <input type="checkbox"/> camera |
| <input type="checkbox"/> warm clothing (warm enough for snow!) | <input type="checkbox"/> binoculars (optional) |
| <input type="checkbox"/> long pants (due to brush) | <input type="checkbox"/> daypack |
| <input type="checkbox"/> raincoat, just in case | <input type="checkbox"/> plenty of water |
| <input type="checkbox"/> hat, sunscreen, and sunglasses | <input type="checkbox"/> boots or supportive shoes |
| <input type="checkbox"/> hand lens (if you have one) | |

RECOMMENDED READING

- *Speaking Through the Aspens*, Jose Mallea-Olaetxe, University of Nevada Press, 2000.
- *The Basque History of the World*, Mark Kurlansky, Walker and Company, 1999.
- An aspen fact sheet and introduction to Basque aspen carvings will be mailed to you by the instructors and should be brought to the seminar.
